

HELP ME SUPPORT WILDLIFE!

I'm fundraising
to help ZSL
to create a world
where wildlife can
thrive, through
scientific research,
wildlife expertise
and global
conservation
projects.

£10

could power cameras that monitor wildlife around the world. From seals in the River Thames to camels in the Mongolian desert.

£15

could buy ten shark tags, to help scientists understand their movements and behaviour.

£40

could train a nature guide in Nepal's National Parks, who will share knowledge of wildlife and the importance of protecting it.

£120

could buy our vets a pair of large scales for animal health checks.

£200

could pay for a motion sensor camera to monitor and protect wild tigers from poachers.
