

# Natural Place Value

## 4-digit numbers

**Key:**

- ★ A leaf = 1,000
- ★ A stick = 100
- ★ A stone = 10
- ★ A seed = 1

1. What is the whole?

2. Find the sum for each set of addends:

a) =

b) =

c) =

d) =

# Natural Place Value

## 4-digit numbers

**Key:**

★ A leaf = 1,000

★ A stick = 100

★ A stone = 10

★ A seed = 1

3. Find the difference:

a)  $4,382 - \text{4 leaves} = \boxed{\phantom{0000}}$

b)  $4,382 - \text{3 sticks} = \boxed{\phantom{0000}}$

c)  $4,382 - \text{8 stones} = \boxed{\phantom{0000}}$

d)  $4,382 - \text{2 seeds} = \boxed{\phantom{0000}}$

4. Write the missing values:

a)  $8,451 = \text{5 leaves} + \boxed{\phantom{0000}}$

b)  $9,575 - \text{5 stones} = \boxed{\phantom{0000}}$

c)  $6,140 = \text{5 leaves} + \boxed{\phantom{0000}} + \text{4 sticks}$
