

Transporting nutrients relay cards

**Nutrients from
food are absorbed in the
small intestine**

ZSL

**The nutrients enter the
blood stream**

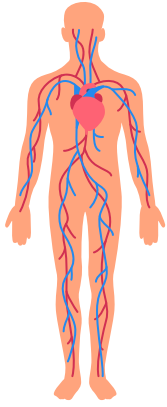

ZSL

**The blood picks up
oxygen from the heart
and is pumped back
out to the body**

ZSL

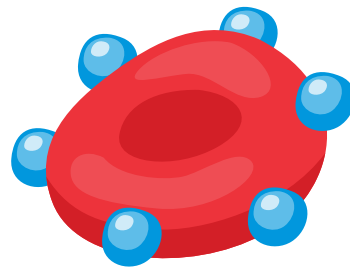

ZSL

**Blood delivers
nutrients and water to cells
all around the body**

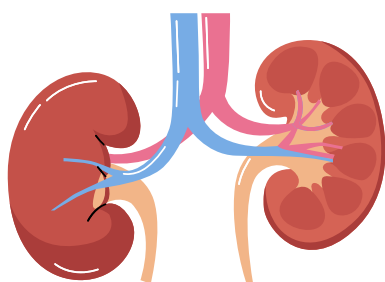

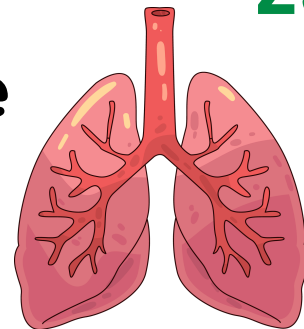

**The blood transports
waste away from the
cells**

ZSL

**The blood goes back to
the lungs carrying waste
products including
carbon dioxide**

ZSL

ZSL

**The kidneys
remove excess water
from the blood**
