ZSL Zoo Research Project Application Form (PAF)

This research project application form is to be completed and returned to the relevant Zoo research sponsor.

The application will be considered by the appropriate research sponsor and depending upon the work being proposed, further information may be requested. It may be necessary for the project to be further reviewed by the ZSL Ethical Review Committee; the applicant will be advised of this process should it be required. The research project may only commence once formal approval is given by ZSL. The project may be amended or terminated by ZSL should the consideration of apparent animal welfare and/or personal safety issues deem this to be necessary during the course of the research programme.

The Primary Researcher must accept the conditions of the ZSL Zoos Research Policy and acknowledge this by initialling the box below. This includes;

- **A responsibility to provide the Research Sponsor with any raw data collected as part of the project, in addition to a copy of the final report of the research, in electronic form.**
- **Consent to be contacted regarding any aspect of the project.**

Please initial the box to show you understand and agree to these conditions.

Project Title	
Aims/Objectives	
Project Background	
Primary Researcher(s) <i>Include full academic contact details, including institution and email.</i>	

Co-researcher(s)						
Research status <i>Mark in bold</i>	BSc	MSc	PhD	Professional	Other:	
Course details <i>Include full title of course (where applicable)</i>						
Academic supervisor(s) <i>Include full academic contact details, including institution and email.</i>						
Research request <i>Mark in bold</i>	Samples	Observations	Animal Records	Staff questionnaire	Visitor questionnaire	
Full research methodology <i>Including project timetable/timeframe, methodology (including ethograms for behaviour studies) and with supporting references where possible. (Attach additional sheets if necessary)</i> Please provide details of any data requirements or tissue samples, including any specific collection and storage protocols.
